Single Lite Skylight Specification

Confirm your selections so we can send your quote and drawing together

Please check one option in each section. Once every section is confirmed, Royalite will send your quote and shop drawing together for e-signature through Adobe Acrobat.

1 Glazing material

- ☐ **Glass**
  Insulated glass, tempered over laminated. See Section 2A.
- ☐ **Acrylic**
  Double acrylic glazing. See Section 2B.

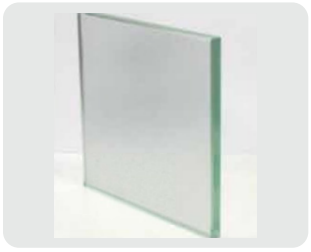

2A Glass color

Tints and Solarban 90 incur an additional cost

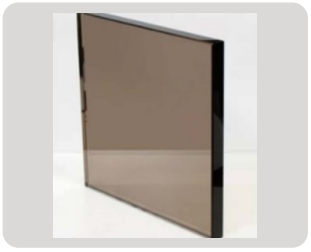

All Royalite glass skylights use insulated glass, tempered over laminated. Choose clear (no tint) or one of our standard tints, then choose your low-E coating. On-screen colors may not exactly match the actual glass.

☐ **Clear Laminated**
No tint

☐ **White Laminated**
Tinted

☐ **SolarBronze Tempered**
Tinted

☐ **SolarGray Tempered**
Tinted

Low-E coating

- ☐ **Solarban 70 (standard)**
  Included in our standard quote.
- ☐ **Solarban 90 (additional cost)**
  Similar look to Solarban 70; different performance values.

2B Acrylic color

Acrylic tints incur no additional cost

Royalite acrylic skylights are double glazed. Choose clear (no tint), white (translucent) or bronze. On-screen colors may not exactly match the actual material.

☐ **Clear Acrylic**
No tint

☐ **White Acrylic**
Tinted

☐ **Bronze Acrylic**
Tinted

3 Fixed or operable

☐ **Fixed**
Sealed, non-opening skylight.

☐ **Operable** Select an operator:

- ☐ **Manual** — Pole or hand crank: ☐ Pole ☐ Hand crank
- ☐ **Electric** — Hardwired; wall switch.
- ☐ **Solar** — Solar-powered; with remote.

ⓘ Electrical components are priced separately; we recommend a licensed electrician wire the motor. SolarSmart motors perform best with maximum sunlight (south-facing roof, 15°–40° slope, panel clean and unshaded). Placement suitability is the purchaser's responsibility; a poorly placed panel will result in ongoing diminished performance.

4 Frame finish

Standard finishes are priced equally

All standard finishes are priced equally, including Mill Finish (raw, unpainted aluminum). Paint: polyurethane.

☐ Bronze	☐ V-Gray	☐ Black	☐ Silver	☐ White	☐ Mill Finish

UPGRADES · ADDITIONAL COST

☐ **Coraflon®** improved color retention

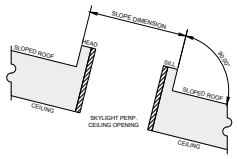

☐ **Custom color match:** _____

Custom color match: not all colors and paints can be matched. A physical paint chip is required for color matching and approval.

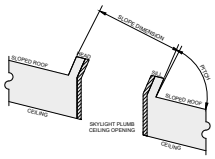

5 Curb condition

All curbs and flashing by others

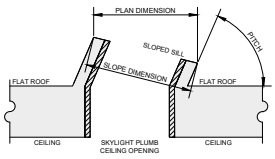

Royalite skylights install on curbs built perpendicular (90°) to the roof. Check the condition that matches your project.

☐ **Perp. curb on sloped roof**
Fixed and operable skylight condition

☐ **Perp. curb on plumb ceiling opening**
Fixed and operable skylight condition

☐ **Perp. curb on flat roof**
Minimum 1:12 pitch, max 2:12 pitch

ⓘ Curbs pitched at 2:12 drain water well and minimize dirt build-up on the glass, so they need less frequent cleaning.
